

Testing Plan

Team Details:

Kanad Pardeshi : 190050056 Manan Agarwal : 190050065
Tanu Goyal : 190050123 Dhruva Dhingra : 190070020

Part A: Functional Testing

Sr No	Use Case	Positive Test	Negative Test
1	Signup/Login	1. Valid signup 2. Valid login	1. Signup with pre-existing info 2. Invalid login a. Wrong username b. Wrong password
2.	Homepage	1. Basic test of homepage with posts	1. Checking homepage without posts
3.	Friend Requests / Recommendations	1. Checking display recommendations	None
4	View User Page (Includes sending requests)	1. Checking if appropriate user/page (with their posts) is being displayed 2. Sending request to user/page	1. Checking page of user/page which is already a friend/being followed (Sending request to an already existing friend) 2. Trying to view your own user page, should redirect to the user timeline.
5	Create Post as a User	1. Creating valid post	1. Trying to create a post with some missing data. This should not be created, and a prompt should show up instead
6	Create Post for Page	1. Creating valid post	1. Trying to create post with some missing data 2. Trying to create post with non-admin account
7	Make comment on post	1. Creating a valid comment	1. Empty comment to be considered invalid

			2. User commenting on their own post shouldn't be possible
8	React on post	<ol style="list-style-type: none"> 1. Choosing reaction among those available 2. Checking reversibility of reactions 	1. User reacting on their own post shouldn't be possible
9	Create Page	<ol style="list-style-type: none"> 1. Creation of valid page 	1. Create page with missing data
10	Edit Page	<ol style="list-style-type: none"> 1. Seeing if changes are visible to other user 2. User's page should also get updated 	1. Page edits with missing info shouldn't be allowed
11	View Page	<ol style="list-style-type: none"> 1. Basic test of page with posts 	1. Checking page without posts
12	Create Group	<ol style="list-style-type: none"> 1. Creation of valid group 	1. Creating group with missing data
13	Add/Remove Members to/from Group	<ol style="list-style-type: none"> 1. Adding/removing members 2. Non-admin shouldn't be able to see adding/removing of members 	1. Adding more members than specified limit (say 10)
14	Change Description/Profile Picture of Group	<ol style="list-style-type: none"> 1. Check if change is displayed 2. Check that blank profile picture is allowed 	None
15	View Messages	<ol style="list-style-type: none"> 1. Checking if latest messages are visible in chronological order 	None
16	Send Message	<ol style="list-style-type: none"> 1. Checking if sent message is visible to receiver, for both individual and group messages 	1. Check that empty message is not sent
17	Upload Status	<ol style="list-style-type: none"> 1. Successful upload 	1. Trying to upload empty status should redirect to upload status page

1. Signup / Login :
 - a. Users either sign up or log in.
 - b. If the password is incorrect while logging in, an error message is displayed.
2. Homepage :
 - a. User is redirected to this page after logging in.
 - b. This displays the posts of the user's friends/followed pages in descending order.
 - c. Each post would have a react and comment option below it.
3. Friend Requests / Recommendations (Includes accepting/rejecting requests) :
 - a. Users can see a list of friend requests and can accept, reject or ignore (by scrolling down) each request.
4. View User Page (Includes sending requests) :
 - a. User clicks on another user's name to navigate to the user's page.
 - b. If the user whose page is being viewed (userB) is not a friend of the user who is viewing the page (userA), then, an option to send friend requests is available. Otherwise, it is replaced by the word "You are Friends".
 - c. userB's posts are visible on this page sorted in descending order.
5. Create Post as a User :
 - a. Select type and upload/write content.
6. Create Post for Page
 - a. Select type and upload/write content.
 - b. If the logged in user is not an admin of the page, an error message is displayed.
7. Make comment on post
 - a. Embedded in viewing homepage/user timelines.
 - b. Enter text and submit.
8. React on post
 - a. Click on a react button to react/unreact.
9. Create Page
 - a. Create a page with name and description.
10. Edit Page
 - a. Change page name and/or description.
11. View Page
 - a. View page and posts posted by that page.
12. Create Group
 - a. Create a group along with description and/or profile picture.
13. Add/Remove Members to/from Group
 - a. Add members to the group or remove members from the group.
 - b. If the logged in user is not an admin of the group, then, the above fails.

14. Change Description/Profile Picture of Group

- a. Change description and or profile pictures of a group.
- b. If the logged in user is not an admin of the group, then, the above fails.

15. View Messages

- a. View a list of past conversations (between users and/or groups).
- b. Select a conversation from this list and view sent/received messages.

16. Send Message

- a. View a list of past conversations (between users and/or groups).
- b. Select a conversation to send a new message.
- c. Or click on create a new conversation.

17. Upload Status

- a. Select content and upload text/photo/video.

Part B: Load Testing

We plan to make the following observations during Load Testing for our website, subject to the availability of time.

1. Increase the Number of HTTP Requests per second from 1 to 10^5 , and observe its performance on metrics such as latency.
2. We will observe latency on different forms such as Homepage, timelines recommendations page, Pages, and chat messages.
3. We will also observe latency with an increasing number of users and messages for the above views.
